Code

```
class LargestNumber
{
        public static void main(String args[])
        {
        int a=10,b=20;
        if(a>b)
        System.out. println("A is greater than B");
 else
         System.out.pritln("B is greater than A);
        }
        }
```

Output:

```
B is greater than A
```
